Local Houseboat Company Answers Customers' Requests

(Coulee Dam, Wash. July 1, 2008) – Roosevelt Recreational Enterprises (RRE) had another luxurious 59 ft. houseboat arrive on June 26. RRE's fleet now stands at 15, with 52 and 54 ft. models as well. The company continues to upgrade its fleet to the larger, more luxurious boats for their customers.

“The larger boats with more features are in higher demand,” said Billy Nicholson, director of small business. “We are addressing our customers' needs and are continuing to upgrade our fleet whenever possible.”

The newest 59 ft. luxury craft will feature three staterooms, one bunkroom, two deck level cuddies, AC, a beautiful kitchen with full size gas range and refrigerator/freezer, dishwasher and microwave, vaulted ceiling, home theatre entertainment centre, forward access and rear spiral staircase to upper deck and hot tub, suntan deck, dining area, BBQ area with double stainless steel sink, dining bar, bar fridge and ice maker.

The houseboat was purchased from Twin Anchors out of Sicamous, BC. They have been building houseboats for over 25 years.

Last year, RRE sold 10 of its older models and is currently looking to sell five more.

For more information on RRE, go to rrehouseboats.com or call them at 1-800-648-LAKE.
